DELIVERY AND ACCEPTANCE TERMS

Delivery plan: confirm requirements, provision the environment, configure integrations,
complete user acceptance testing and provide a production handover.

The customer appoints a project sponsor and provides timely access to agreed source systems.

Support covers incidents within the agreed scope; new development requires a change order.

Prices are stated only in the billing currency above. No exchange-rate conversion is assumed.

Acceptance requires approval of this quote number and its stated commercial schedule.

Approval status: prepared for demonstration; no real customer has signed this document.
